

STATEMENT OF BASIS
TOWN OF CARBONADO
NPDES PERMIT NO. WA0020834

The purpose of this Statement of Basis is to explain the need to modify the Permit to remove the testing for influent flow for the Town of Carbonado Wastewater Treatment Plant.

I. GENERAL INFORMATION

- A. Permittee: Town of Carbonado
 P.O. Box 91
 Carbondado, Washington 98396
- B. Discharge Locations: Carbon River
 Latitude: 47° 04' 44" N
 Longitude: 123° 03' 31" W

II. REQUEST FOR MODIFICATION:

The plant does not have an influent flow meter. The existing permit requires that both influent and effluent flow is to be sampled continuously. Given the type and size of the facility, the Department of Ecology believes it is unnecessary to monitor influent flow. Effluent flow measurements will be sufficient for the needs of the discharge permit.

Modifications made to the permit include removing influent flow from the monitoring schedule found in S2 of the permit.

This Statement of Basis will serve as an amendment to the Fact Sheet and Permit.
